# Smart Keeper

---

## 1/2 USB Port Lock or Closing Lock

Blocks unused USB ports to prevent unauthorized access. There are removable keyed solutions as well as a special non-removable model.

## 3 Link Lock

Locks USB cables so that they cannot be removed without a key.

## 10 Lan Cable Lock

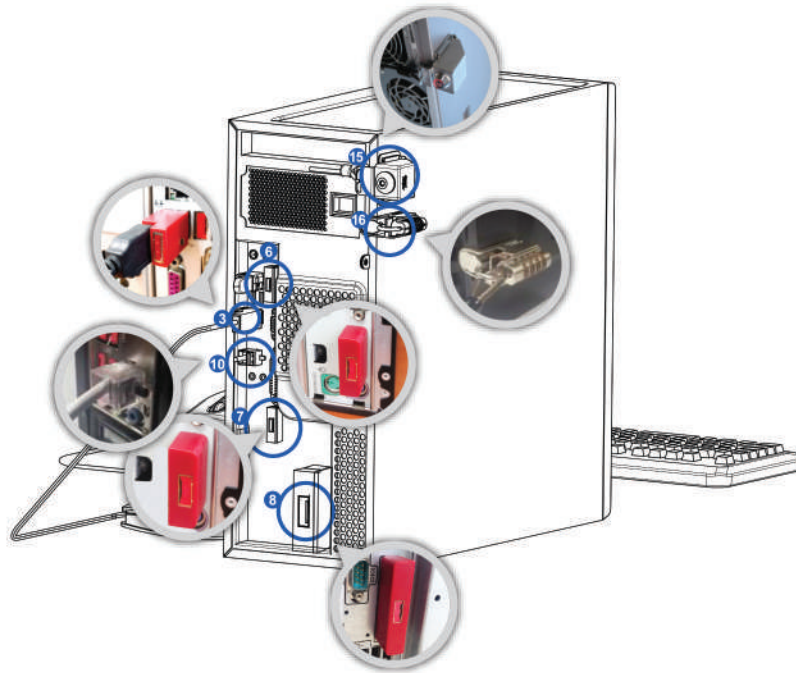

Locks down RJ45 ports to prevent unauthorized access to your network.

## 17 Laptop Lock

Locks onto a USB port so that a laptop computer can easily be tethered to something to prevent theft.

# Laptop (Notebook)

Applicable products (5): Laptop Lock, USB Port Lock, USB Closing Lock, Link Lock, Lan Cable Lock

### 3 Link Lock

Prevents unauthorized removal of a USB cable.

### 6 Serial Port Lock

Prevents unauthorized access to unused serial ports.

### 7 DVI Port Lock

Prevents unauthorized access to unused DVI ports.

### 8 Parallel Port Lock

Prevents unauthorized access to unused parallel ports.

### 10 Lan Cable Lock

Locks down RJ45 ports to prevent unauthorized access to your network.

### 15 PC Lock (Key Ver.)

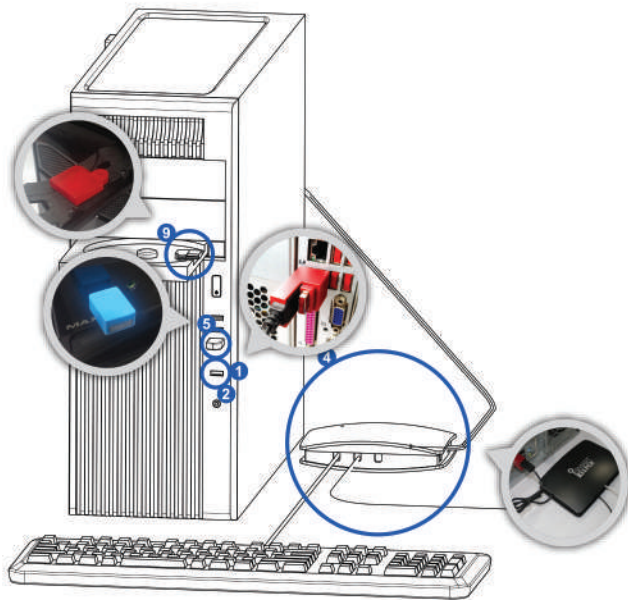

Prevents unauthorized users from opening a computer case. Customizable key patterns are available.

### 16 PC Lock (Combination Ver.)

Prevents unauthorized users from opening a computer case. The authorized user can set his or her own combination.

## Desktop (Back panel)

Applicable Products(7): PC Lock (Combination Ver.), PC Lock (Key Ver.), Link Lock, Serial Port Lock, DVI Port Lock, Parallel Port Lock, Lan Cable Lock

**1/2 USB Port Lock or Closing Lock**

Blocks unused USB ports to prevent unauthorized access. There are removable keyed solutions as well as a special non-removable model.

**4 Link Lock Hub**

Serves as a USB hub for your attached I/O devices and locks them down so that they cannot be removed without authorization.

**5 Link On (Lockable USB Memory)**

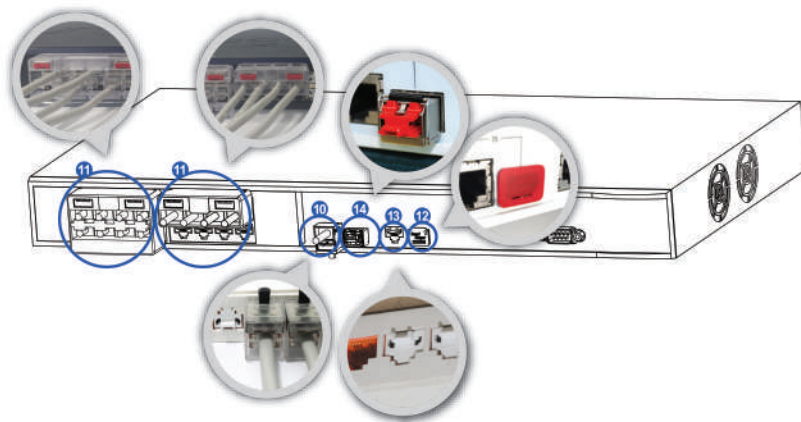

Is a tiny USB memory stick that locks into place and cannot be removed without authorization. (custom order only)

**9 ODD Lock**

Prevents unauthorized access to optical disc drives.

## Desktop (Front panel)

Applicable Products(5): USB Port Lock, USB Closing Lock, ODD Lock, Link On, Link Lock Hub

## 10 Lan Cable Lock

Locks in your network cables so that they cannot be removed without a key.

## 11 Network Module Lock (2 row)

Locks network cables to prevent unauthorized removal.

## 11 Network Module Lock (1 row)

Locks network cables to prevent unauthorized removal.

## 12 Fiber Optic Module Lock

Blocks unused fiber optic module slots to prevent unauthorized access.

## 13 Network Port Lock

Blocks unused network jacks to prevent unauthorized access to your network.

## 14 Fiber Optic Port Lock

Blocks unused GBIC slots.  
(SC or LC types)

## Switches or Hubs

Applicable Products(5): Network Module Lock(2), Lan Cable Lock, Fiber Optic Module Lock, Fiber Optic Port Lock, Network Port Lock

# Smart Keeper Application Check List

Security Parts	Application Purpose	Applicable Products	Model	Image Number	Unlock Method	Product Characteristics	Certification
USB	Closing USB ports permanently	USB Port Closing Lock	CSK-PC01	1	<b>Impossible to unlock</b>  <b>Universal Lock Key</b> (Using designated lock keys per each site)	After inserting into USB ports, no way to remove (Highest security level)	US Patent Pending
	Blocking unused USB ports	USB Port Lock	CSK-UL10	2		Closing and opening unused USB ports with Lock Key when necessary	US, Korea Patented
	Allowing use of authorized USB devices only or preventing USB devices removal	Link Lock	CSK-LK11	3		Allowing use of authorized USB devices only (Keyboard, mouse, memory) and preventing unauthorized device removal or attachment	US, Korea Patented
	Connecting multiple USB devices securely	Link Lock Hub	CSK-LKH01	4		Expanding Link Lock support from 1 device up to 4 devices	Korea Patented EMC, FCC certified
USB Memory	Preventing unauthorized removal of equipped USB memory	Link On	CSK-OM01	5		USB memory with locking function and order made with logos upon request	
Serial Port	Blocking unused COM ports (serial port and 9 pin port)	Serial Port Lock	CSK-CPL10	6		Locking / unlocking unused serial ports with a USB Port Lock and a Key	
DVI Port	Blocking unused DVI ports	DVI Port Lock	CSK-DL10	7		Locking / unlocking unused DVI ports with a USB Port Lock and a Key	
Parallel Port	Blocking unused parallel ports	Parallel Port Lock	CSK-PL10	8		Locking / unlocking unused parallel ports with a USB Port Lock and a Key	
ODD	Preventing using CD, DVD	ODD Lock	CSK-OL10	9		Not allowing use to CD, DVD	Korea Patented US Patent Pending
Network	Preventing removal of lan cables in use	Lan Cable Lock	CSK-NC10	10		Preventing unauthorized lan cable removal	US, Korea Patented
	Locking network module in use (1 or 2 rows)	Network Module Lock	CSK-LM10	11		Locking network cables in the modules at once (12 or 16 ports)	US, Korea Patent Pending
	Blocking unused GBIC module ports	Fiber Optic Module Lock	CSK-FO10	12		Locking / unlocking unused GBIC ports with a Lock Key	Korea Patented US Patent Pending
	Blocking unused network ports	Network Port Lock	CSK-NL01	13		<b>Lock Key for Network / Fiber Optic Ports</b>	Blocking unused network ports with its key
Blocking unused fiber optic ports (Type LC, SC)	Fiber Optic Port Lock	CSK-FL01	14	Blocking unused fiber optic ports with its key			
PC	Preventing unauthorized PC panel opening to protect internal parts, and theft prevention with a security cable	PC Lock (Key Ver.)	CSK-SL01	15	<b>PC Lock Key</b>  <b>Combination Lock</b> (No key necessary)	Anti-theft lock for PC and/or internal parts (own keys provided)	US, Korea Patent Pending
	Preventing unauthorized PC panel opening to protect internal parts, and theft prevention with a security cable	PC Lock (Combination Ver.)	CSK-SLD10	16		Anti-theft lock for PC and/or internal parts (combination lock)	US, Korea Patent Pending
Laptop	Anti-theft lock for laptops not equipped with security slots	Laptop Lock	CSK-LLD10	17	Anti-theft lock to USB port for laptops (combination lock)	Korea Patented US Patent Pending	
Other	New products will be released in 2017 (information will be available on Smart Keeper website)
